

KLOVE Radio (96.5FM in my local area) is a vital part of my day and I can't imagine not having it. At my office we are allowed to have the radio playing at our desk while we work and I can only pick up a couple of stations. If KLOVE were not on the air, I would only have the option of music that adds to my stress level instead of encouraging me as KLOVE does. KLOVE impacts thousands of people each day. The stories they share of people who have made life changing decisions because of the encouragement they hear on KLOVE are amazing. It is definitely in the public's best interest to keep KLOVE Radio on the air and not replace it with a LPFM station. Thank you for your consideration.
